

I Love My Pet Because...

Ella Hessel

I wake up in the morning in the best mood from the kisses my dogs give me. I love my pet dogs because they're nice, cute, funny, and full of unconditional love. I like to take care of my pets by giving them food, water, and playing lots with them. I love to take my dogs outside for some fresh air and sunshine. Sometimes my mom will let me take my dogs for a walk and we go to the park and let them run around. I love running around with my dogs! We even go to the beach sometimes and they love to run around kicking up the sand. I love that my dog's hair is super fluffy and they let me wash it and play with it. One of my dogs will even walk right in the shower with

me! They also love the blow-dryer and try to bite at the warm air. I love my dogs because they snuggle up, make me feel safe, and love me as much as I love them. My pets make me happy and the work a happier place. I love my dogs so much and they are very special to me.
