

I Love My Pet Because...

Petra Sorensen

I love my cats Tux and Panther. I love them because they snuggle with me all the time, and they run to their food when I feed them. I love them because they play with me. They steal my stuffed animals and run away with them. I like them because they are cute, very cute, and because they are soft. I like Tux because he is big and gets into a lot of trouble. I like Panther because he is small and cuddly. I am glad I have them.
